International Workshop on Nonlocal Models, PDEs and Applications
13 - 14 May 2019   Caen, Normandy, FRANCE

Keynote n°4 :   Antonin CHAMBOLLE

CMAP, Ecole Polytechnique, Palaiseau

Title: **Discretizations of the total variation**

We will discuss the order of approximation of different ways, based on finite differences or finite elements, to approximate the total variation of an image for minimization problems.
